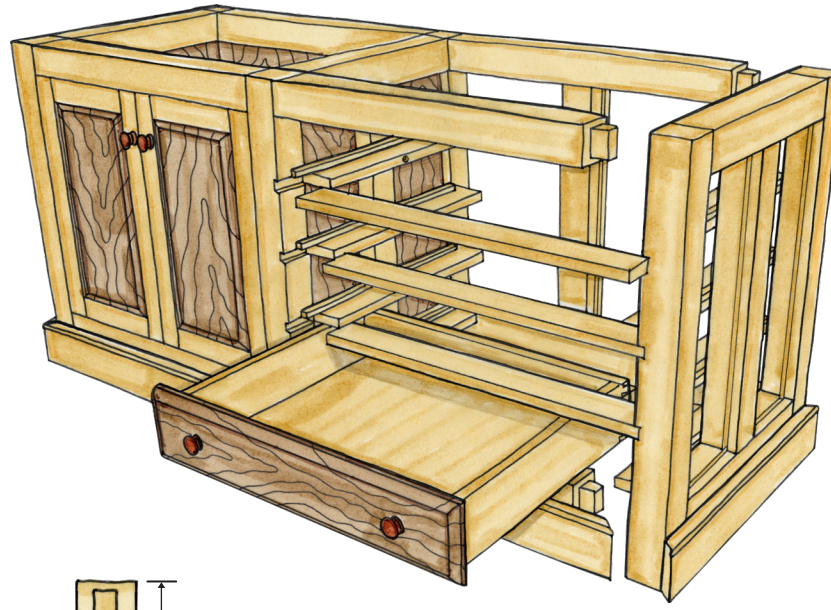
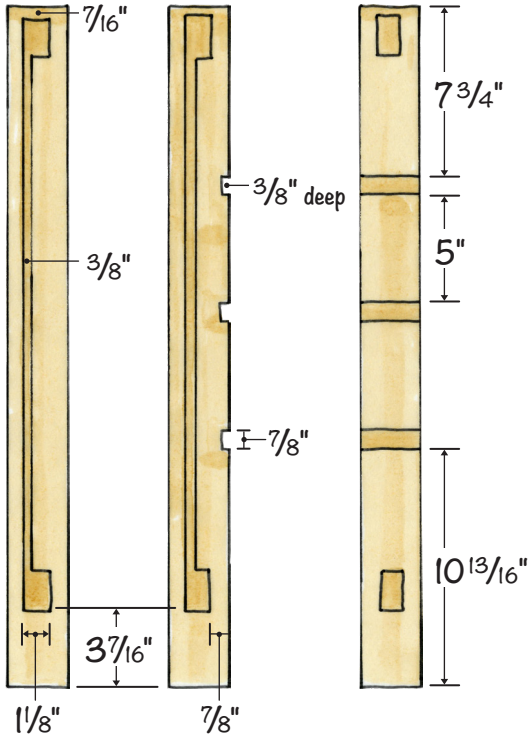
Shaker Workbench

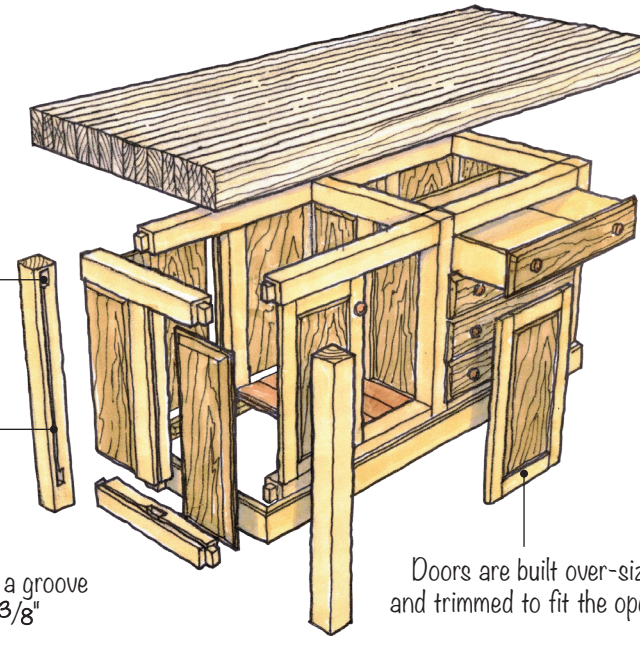




LEGS

DOOR

NOTE: For further joinery details and a full SketchUp model, visit *PopularWoodworking.com/OnlineExtras*

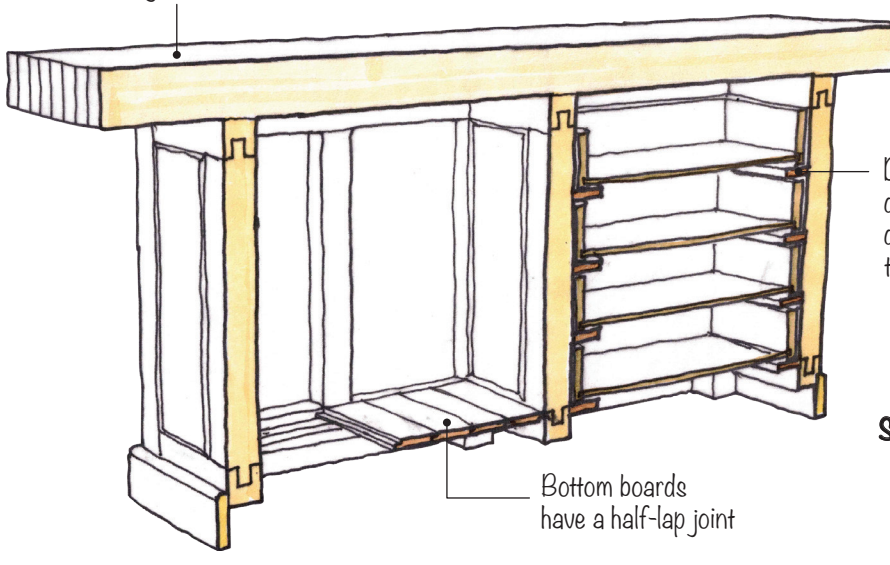


Tenons for base parts are 1 1/4" x 1 7/8" and 1" long (mitered where tenon corners meet). Mortises are sized to match.

Panels fit into a groove that is 3/8" x 3/8"

Doors are built over-sized and trimmed to fit the opening

The top shown here is a simple glue up, similar to the main photo. Add vises to suit your needs.



Drawer runners are dominoed into front divider, and screwed to side panels

FRONT SECTION VIEW

Bottom boards have a half-lap joint

Panels profiles are a 45° bevel with a 3/8" x 3/8" tongue.
